MATHS ACTIVITY

MEASUREMENT

To teach the concept of metre and centimetre, students were asked to measure the length and width of items of the class. It helped them in the application of measuring tape in the day to day life.

SCIENCE MODEL MAKING

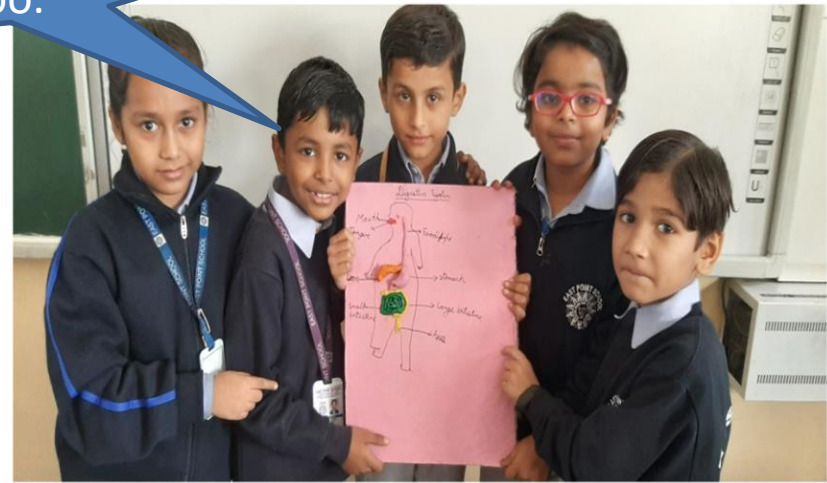

To inculcate the value of working together in a group and for better understanding of the organ systems, children made various systems with clay in the group. They did the activity enthusiastically.

Like organ systems work together, we can do it too.

Working together is fun!

कविता गायन

बाल दिवस के अवसर पर छात्रों ने पृथ्वी विषय पर कविता गायन किया।

Students of class 3 drew “Icons of a Desktop” and “Excretory System” using MS-Paint tools as a project work .

IT WEEK

Created Presentation on “Plants and its roots” using different tools in MS- Power Point Insert text and Picture, Design and different views.
