**ONLINE
PROGRAM**

In science activities the students of class VII were engaged in a poster making activity. This activity provided students with an opportunity to identify and reinforce the dangers that smoking has on the body. The students created posters using the information they have researched on the harmful effects of smoking on respiratory system.

In think green classes students were introduced to the types of renewable energy resources by engaging in various activities . Students explored the different types of renewable energy sources and their role in creating a sustainable environment - an environment that contributes to greater health, happiness and safety.

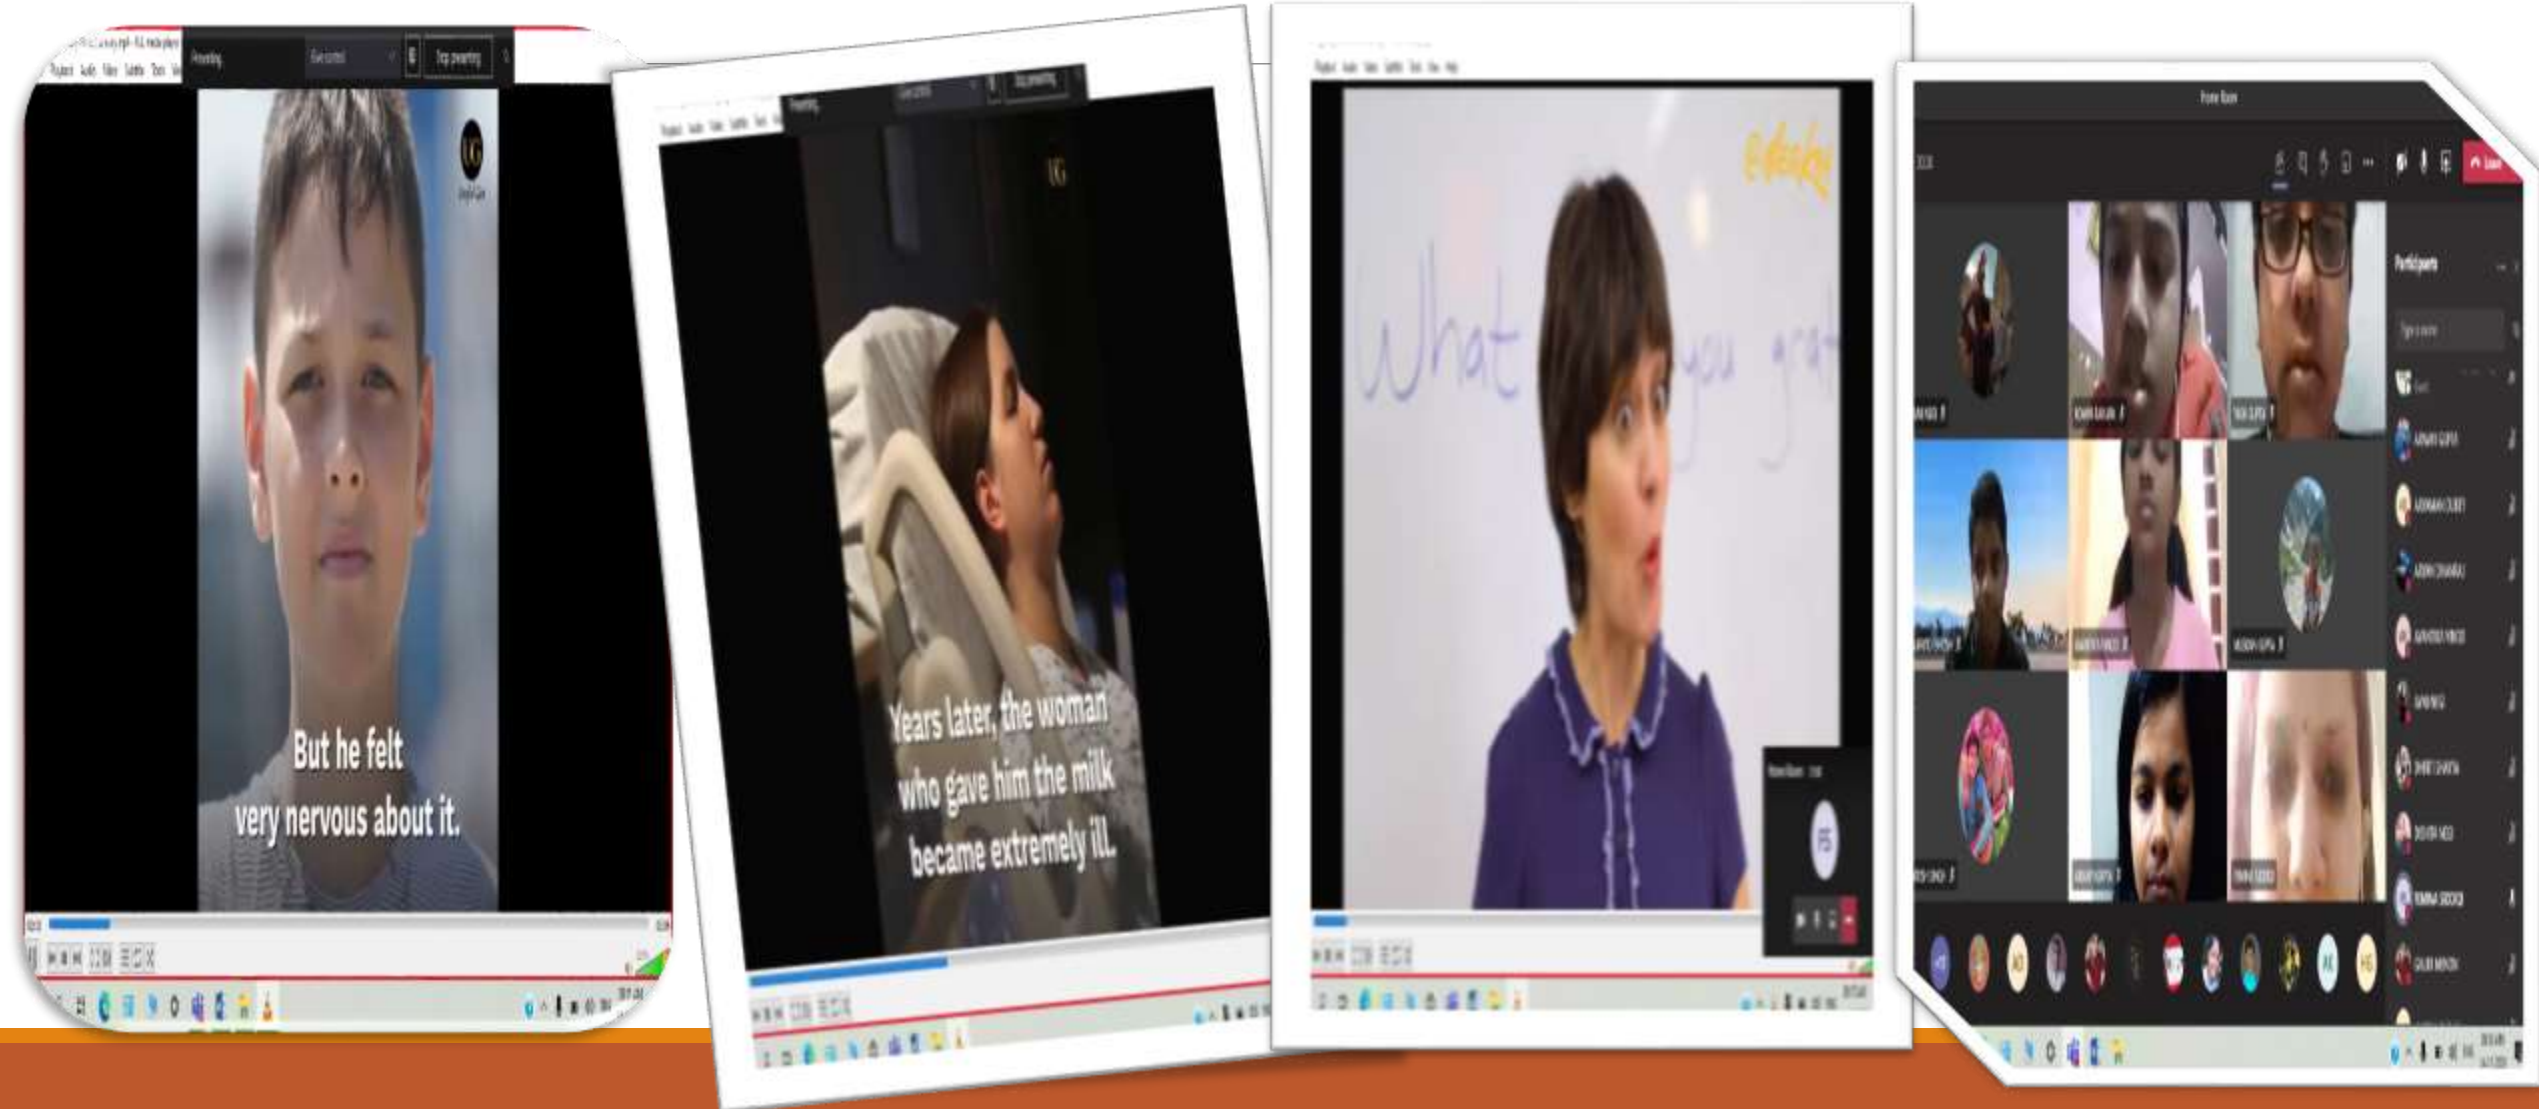

A small quiz was conducted in the class wherein the students framed sentences in direct speech and others changed them into indirect speech and vice versa.

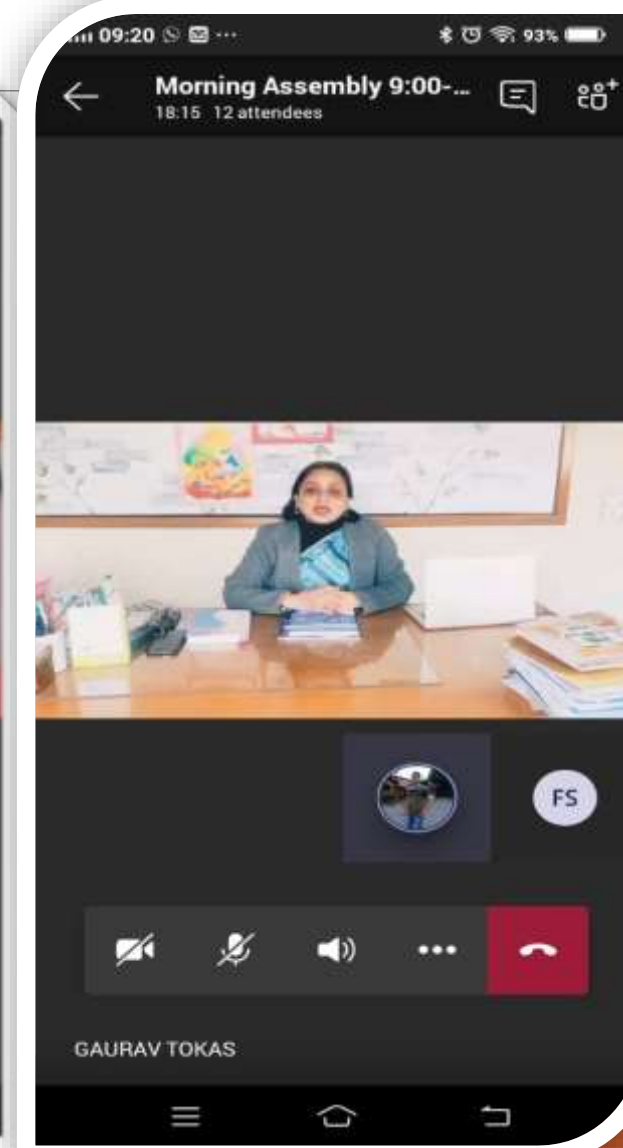

HAPPINESS CURRICULUM

Gratitude was introduced to the students. They were taught the value of gratitude through the small videos.

Christmas and a new year celebration-The efforts of Radhakrishnan House students were showcased in the form of a video. The parents /students enjoyed the program and appreciated the efforts of the teachers and students.

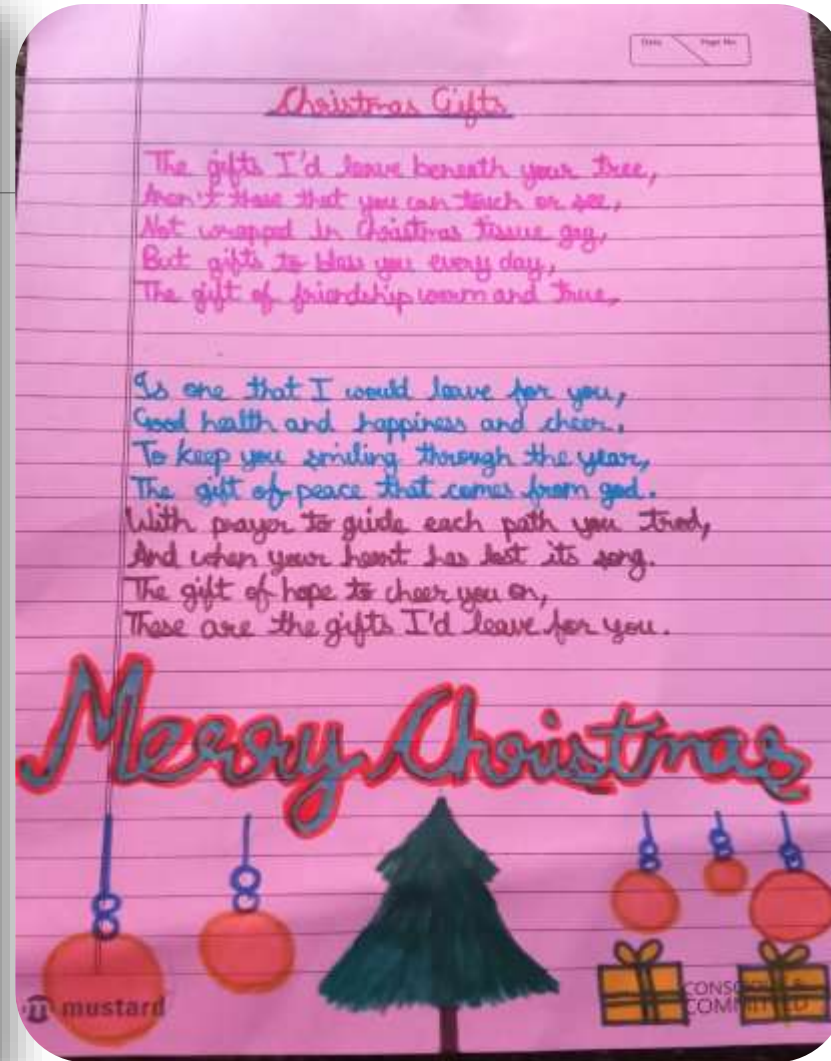

CREATIVITY AT IT'S BEST FOR CHRISTMAS

It' Christmas

Today is the day,
When Santa will lay ,
Some gifts for us ,
Because it's Christmas.

Santa is checking our gifts list
he will do the other things at the end,
He loves children so much
As he is our best friend .
Santa is keenly watching us ,
Because it's Christmas.

AVNI NEGI (VII A)

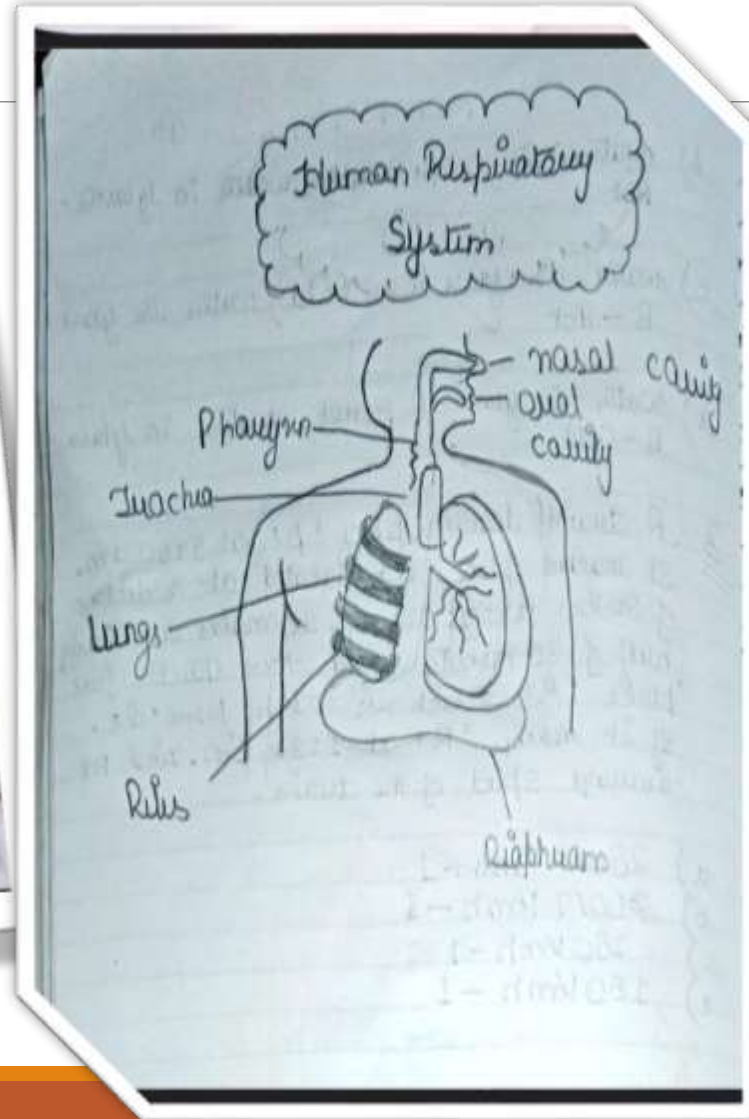

ANVITA BANERJEE (VII B)

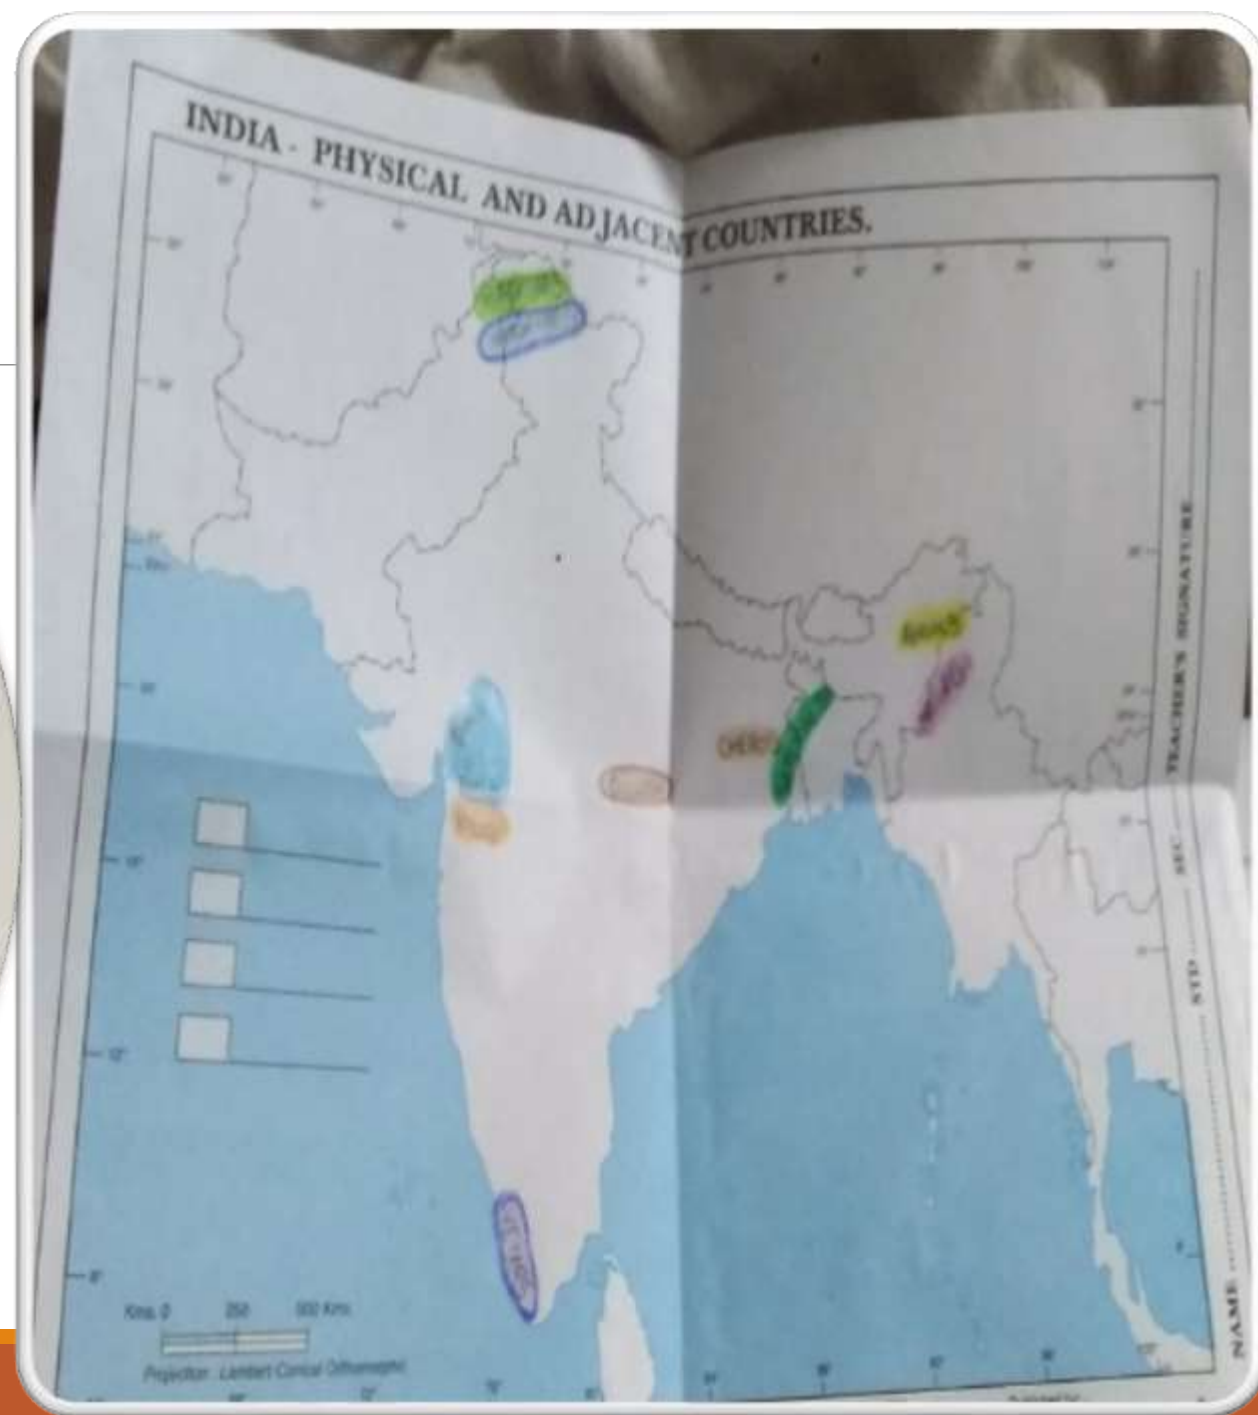

Oh Christmas
Oh Christmas
As soon as I hear
This name It reminds me
On another year it's
Gonna end
And how shoul we spend
This year was all a mess
As the covids were playing a chess
The ending should be good."I thought" and Christmas
reminded me of Santa clause I have so many wishes but my
Biggest wish was the world to smile again
I hope it comes true
And people be cheerful again.
Wish you a merry Christmas and Happy New year ❤️

AASHNA KANNAN (VII B)

Students prepared respiratory system and displayed how diaphragm contract and expand during exhaling and inhaling of the air. Also diagrams are drawn in the notebook to understand respiratory system in humans.

MEDIEVAL TRIBAL COMMUNITIES MAP ACTIVITY

BEST OUT OF WASTE: The students of Class VII under their waste management project participated in various activities and created things out of waste which was indeed praiseworthy.

संस्कृत शब्दकोश

OUTCOMES

Through this sanskrit shabd kosh activity students have enhanced their sanskrit vocabulary.

Every child is gifted.
They just unwrap their
packages at different
times.
