EX·PLORE

EX·PERIENCE

Maths Exhibition

The students put their efforts together to create various models, games and activities related to different mathematical concepts. They explained the rationale of all these to the guests who visited the exhibition.

Field trip to Mughal Garden

Excursion is an important learning method. Therefore, children were taken to Mughal Garden for exploring different types of plants and flowers. Each child was fascinated to know varieties of plants grown in the garden. They read the names of each flower and curiously asked questions related to it.

EVS ACTIVITY

Different landforms of Earth were explained to the students. A video was shown related to the topic and after that models of different landforms were made using clay.

NATIONAL SCIENCE *DAY*

On National Science Day, experiments related to plants were done by the students. They performed experiments on how plants prepare their food and recorded their observations on activity sheets.

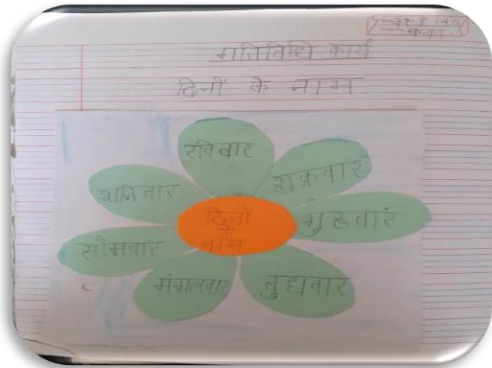

गतिविधि कार्य

गतिविधियां हमारे कक्षा शिक्षण की रोचकता का महत्वपूर्ण अंग होती हैं। बच्चों को एक रोचक गतिविधि के द्वारा “दिनों के नाम” अथवा “महीनों के नाम” याद करना सिखाया गया, जिसे बच्चों ने बेहद उत्साहित होकर सीखा।

दिनों के नाम

महीनों के नाम
