Month:- February
Class:- III

EX·CEL

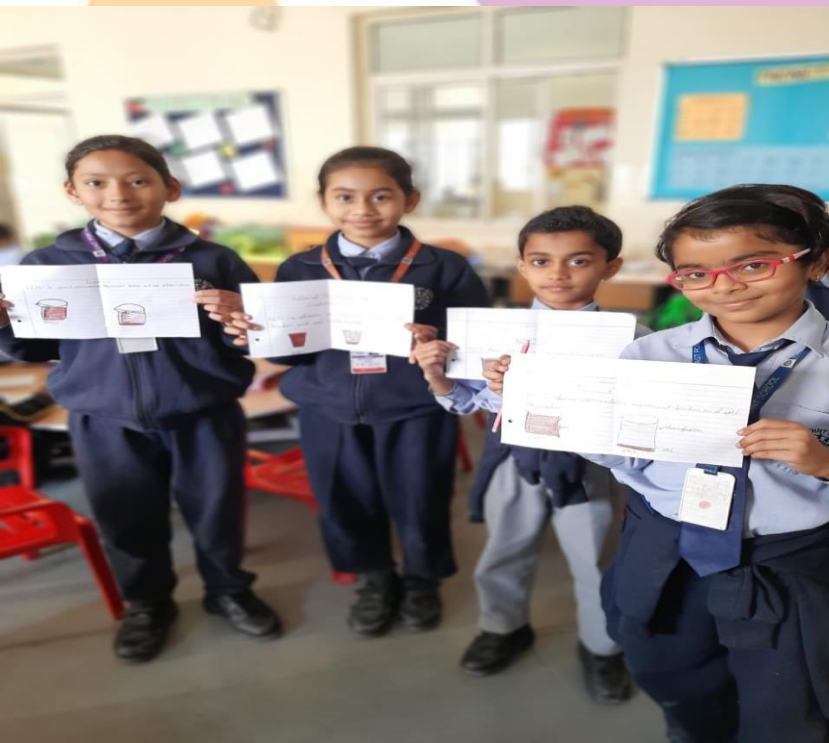

EX·PLORE

EX·PERIENCE

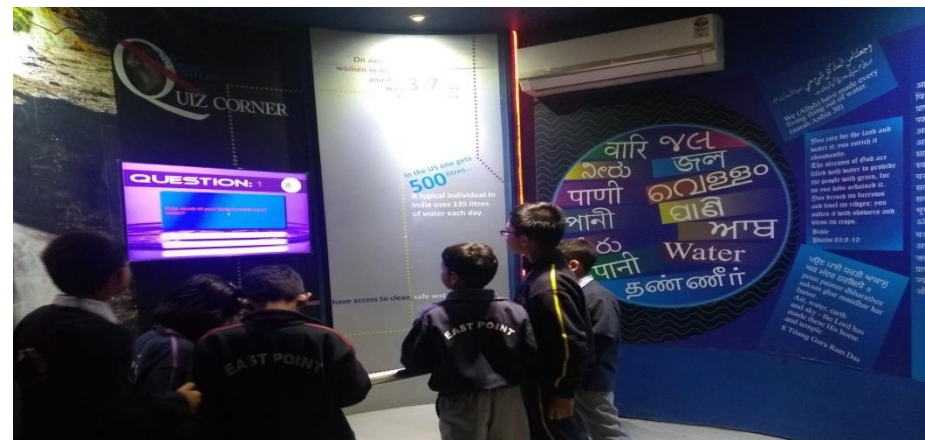

National Science Day

On the occasion of the National Science Day children were told about sedimentation as a process of separation. Children observed the process themselves and recorded it.

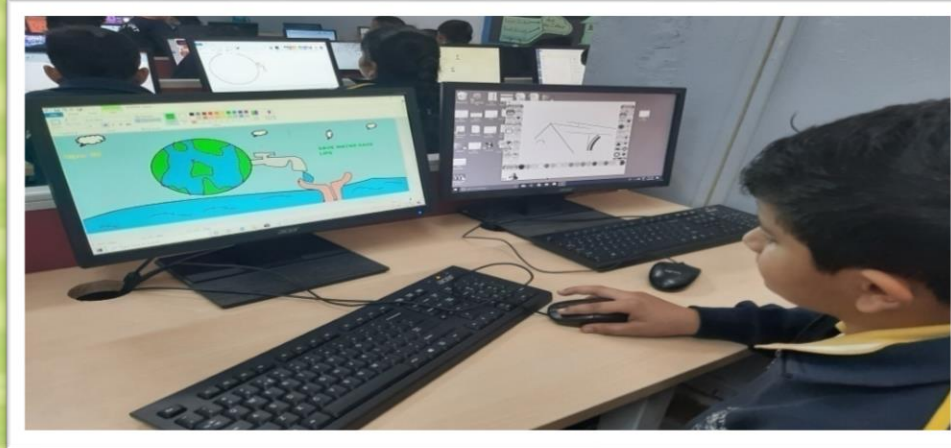

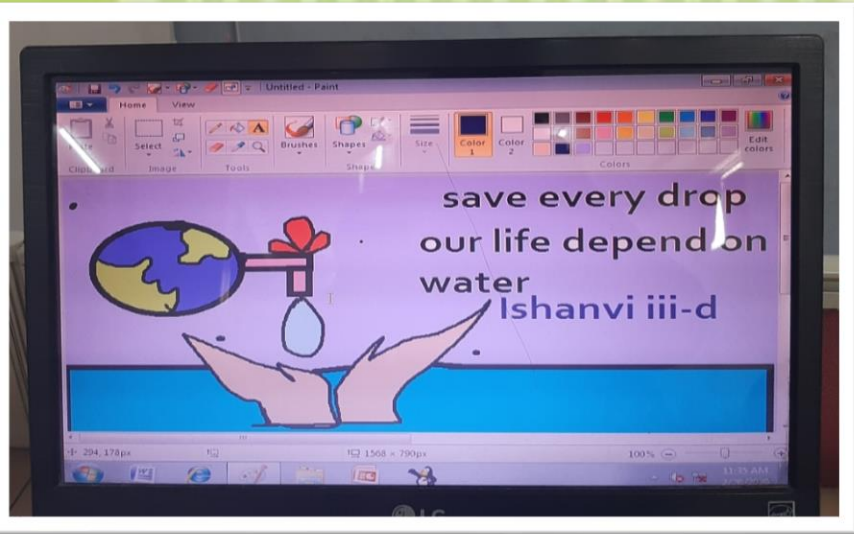

TRIP TO NATIONAL SCIENCE CENTRE

Children were taken to National Science Center to enhance their curiosity in different areas of science. Children also saw the science on sphere show. They were very excited about the different experiments they saw there.

IT and Environment

Children created posters on save water on MS Paint with enthusiasm.

Visit to Paper Recycling Unit

Children were taken to the paper recycling unit to explain the children how we recycle paper. Children themselves also recycled the waste paper and enjoyed it.

Math Exhibition

Children presented Math exhibition on various concepts learnt throughout the year. Children participated actively.

FUN WITH SHADOW

Children measured the change in the size of the shadow with the change in the time.

LEARNING
BY DOING.

वाचन गतिविधि

"जब मुझे मिला मेरा प्यारा रोबोट" विषय पर वाचन गतिविधि कराई गई। छात्रों ने मिट्टी, गत्ते तथा कागज की सहायता से अपने-अपने रोबोट बनाए। इस गतिविधि द्वारा उनकी सोचने की क्षमता तथा वैज्ञानिक दृष्टिकोण का विकास हुआ।
